

Behaviour Management Policy

Rationale

The Behaviour Support Policy at St Paul's Primary School, Mildura (SPPS) seeks to respect the dignity of each person; build inclusive, supportive and caring relationships; foster compassion and forgiveness; and provide information about the practice of developing and promoting respectful behaviours.

As a Catholic school we are committed to fostering the dignity, self-esteem and integrity of all students and providing them with a safe, supportive and enriching environment to develop spirituality, physically, intellectually, emotionally and socially.

From time to time, students, for various reasons, engage in inappropriate behaviours. The response and educative process in understanding this behaviour by others can either hinder or assist in long-term positive behaviours of the individual. It is important, therefore, to have a whole school approach to expectations, development of knowledge, skills and capabilities, support, response and management of student behaviour that is consistent with the school's vision.

Policy Statement

At SPPS we are committed to providing a safe, secure and stimulating Christ centred learning environment for all students. Students can reach their full learning potential only when they are happy, healthy and safe, and when there is a positive school culture to engage and support them in their learning. Our school acknowledges that student wellbeing and student learning outcomes are inextricably linked and therefore every member of the school community has a right to fully participate in an educational environment that is safe, supportive and inclusive.

SPPS provides a whole school approach to behaviour management that is based on developing student knowledge skills and capabilities in understanding and demonstrating positive behaviours. It also provides clear expectations, processes and consequences that will be implemented if there is inappropriate behaviour, as detailed in the supporting SPPS Behaviour Management Procedure (Appendix A).

At SPPS, discipline is concerned with maintaining a secure, healthy and respectful school community.

We aim to promote:

- (a) Self-discipline and positive approaches to the development of acceptable behaviour in students.
- (b) A united and consistent approach to behaviour management by staff and parents.
- (c) A restorative approach in as many situations as appropriate.
- (d) Resilience and problem solving

Principles

1. SPPS supports and gives expression to the belief that each individual is at the heart of Christ's teaching through fostering wellbeing and pastoral care.
2. Enhanced student wellbeing contributes significantly to improved student learning outcomes. Effective student behaviour management, as an element of pastoral care, is therefore recognized as promoting the achievement of learning outcomes and contributing positively to school improvement.
3. Student engagement and regular attendance assists in developing appropriate behaviours through the implementation of whole school strategies supported by targeted and individualised support when required.
4. Effective whole-of school approaches to behaviour management requires age appropriate education and skilling of students through processes focused on individual and community wellbeing, and on ensuring a just and reasonable balance of individual and community rights, needs and responsibilities.

5. Discipline will be applied in a way that is proportionate to the behaviour and upholds procedural fairness. It will not include, under any circumstances, corporal punishment.
6. Actions and consequences have an educational role and aim to foster positive relationships and retain the dignity of students.
 - Every member of the school community has a right to fully participate in an educational environment that is safe, supportive and inclusive. The safety and wellbeing of others will be an important consideration in determining the actions and consequences to inappropriate behaviour.
 - The school wide approach will be consistent with Catholic Education Ballarat's *Guidelines for Behaviour Support* (2016).
 - SPPS respects privacy laws and will not divulge outcomes of actions or consequences other than to the individual student's parents.

Implementation

In light of our Behaviour Support Policy and these guiding principles at SPPS we will:

- Collaboratively develop and implement a fair and respectful whole-school engagement and behaviour management approach based on restorative justice and processes that are consistent with the Catholic Education *Ballarat's Guidelines for Behaviour Support* (2016) which includes the processes for exclusion, suspension, assisted transfers and expulsion (in the case of serious offences).
- The School Wide Positive Behaviour Support Framework will be used to teach behavioral expectations in the same manner as any core curriculum subject.
- Ensure that the school's curriculum includes pro-social values and behaviour to enable students to acquire knowledge and skills, value diversity and build a culture of learning, community and engagement
- Promote active participation in the life of the school and provide students with a sense of ownership in their school environment
- Support families to engage in their child's learning and build their capacity as active learners
- Promote active student participation as an avenue for improving student outcomes and facilitating school improvement
- Establish social/emotional and educational support for vulnerable students and monitor and evaluate progress
- Have processes in place to identify and respond to individual students who require additional assistance and support
- Build strong links with the local community to gain access to an extended network of community members, professionals and educators who can provide expertise and experience that can build the capacity of our school and our teachers to respond to the needs of the students
- Fully implement the CEOB's "Guidelines for Behaviour Support" (2016).

Documentation and Data Analysis

Minor and Major incidents in the yard or during class are recorded in on a SWIS form. (See Appendix B)

The SWPBS team meet weekly, along with twice termly year level team meetings to analysis SWIS data.

DATA: What do we currently see and know?
Data based decision making (such as SWIS data, Insight SRC etc) guides selection and modification of all our practices, including intervention.
OUTCOMES: What do we want to see?
Clearly specified outcomes are related to academic achievement and social competence
PRACTICES: What practice could effectively, efficiently and relevantly achieve what we want to see?

Evidence-based practices have a high probability of outcome achievement for students

SYSTEMS: What needs to be in place to support

- Practice adoption that is informed
- Full implementation that is contextualised, accurate and sustainable?

Systems support adult adoption, high fidelity implementation and sustained use of effective practices

Consequences for Unacceptable Behaviour

In situations where it may be necessary to use restrictive interventions to protect the safety of a student and members of the school community, the school will follow procedures consistent with CECV Positive Behaviour Guidelines.

Restrictive interventions are only used in emergency situations and there are no other options in maintaining the safety of others. It must not be used as part of student management plan. Professional learning on appropriate use of restrictive interventions will be undertaken annually by all staff.

- The school will keep a register for indicating details of any suspensions, expulsions and exclusions. This will be maintained in SIMON and overseen by the principal. Relevant documentation will be stored electronically.
- Principal and wellbeing leader will discuss any penalties that imposed on students and will be recorded on the student behaviour tracking program in SIMON. Any penalties will be communicated to parents.
